Lunchtime Conference External Cooperation Infopoint

Introduction

- **MARJETA JAGER**

Deputy Director General DEVCO

Presentation

- **MARK ROBINSON**

Executive Director EITI

Conference language: English

Language Q&A session: English, French

The EITI standard is the internationally recognised reference to assess the transparency of the investment climate and a responsible business environment in the extractive countries.

Beyond disclosure on payments, mining licenses, beneficial ownerships of state owned entities, EITI helps to assess whether the extractive sector is leading to the desirable social and economic impact.

EITI implementing countries have now been called to find innovative ways to contribute to gender equality in the governance of their oil, gas and mining resources.
